RE: McGinnes Industrial
Maintenance Corporation
TX No. 0004910
DET: March 30, 1976

Mr. John C. White, Regional Administrator
Environmental Protection Agency, Region VI
1600 Patterson Street, Suite 1100
Dallas, Texas 75201

Dear Mr. White:

The Texas Water Quality Board has examined the above-referenced permit and certifies the proposed permit in accordance with Section 401 of the Federal Water Pollution Control Act Amendments of 1972.

In making this certification, the Board states that, as of this date, the standards of performance and pretreatment standards under Section 306 and 307 of the Act for new sources in this category have not been established by the Environmental Protection Agency.

This facility is authorized by an existing State permit and is consistent with the requirements of the National Pollutant Discharge Elimination System.

Very truly yours,

Dick Whittington
Hugh C. Yantis, Jr.
